I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have successfully used a compounded medication for a few years. This decision arose after unsuccessfully using several "one-size-fits-all" medications produced by large pharmaceutical companies. My physician and pharmacist confer to compound my specialized prescription. As a result, my health and the quality of my life significantly improved.

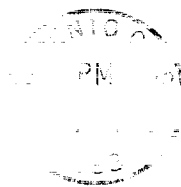

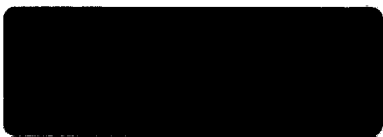

Since there are no pharmacies within California who compound this type of medication, I purchase my prescriptions by mail. Please do not succumb to pressures by pharmaceutical conglomerates who wish to cash in and control an emerging, financially lucrative market. Let them compete, and most importantly, DON'T TAKE AWAY MY CHOICES FOR HEALTH!
